

*No More Pain* by *Midnight Dust* (Robby Lee at the time)

One breath

Pain strikes through my body

Like when lightning strikes a tree

Breathe in, breathe out

The world fading fast

Like water on a fire

Staggering breathe, then cough

Feeling lost in my legs

Like when they fall asleep

Last breath

Heart slows to a stop

Nothing is heard

Nothing is felt

No more pain

Everything is so cold

Gone...
